PROFESSIONAL SUMMARY

System Administration-focused IT professional with 1+ years of enterprise support experience across Windows environments, Microsoft 365, Active Directory, networking, and endpoint administration. Experienced in Windows deployment, OS installation, data backup and migration, domain joining, DNS/DHCP configuration, Outlook support, printer administration, VPN troubleshooting, and remote L1/L2 support. Resolve 30–40 incidents daily while consistently meeting SLA targets. CCNA certified with hands-on Windows Server 2025, VMware, Active Directory, Group Policy, and Cisco enterprise networking home labs.

CORE COMPETENCIES

Windows Administration • Active Directory • Windows Server • Microsoft 365 • Outlook • DNS • DHCP • TCP/IP • VPN • Remote Support • ITSM • OS Deployment • Data Backup • Printer Administration • Cisco Networking • VMware • PowerShell (Learning)

PROFESSIONAL EXPERIENCE

Remote Support Engineer | Sysnet Global Technologies Pvt. Ltd. | May 2026 – Present

- Resolve 30–40 enterprise incidents each day while consistently achieving SLA targets.
- Perform Windows installation, formatting, data backup, restoration, and end-user migration with minimal downtime.
- Join desktops and laptops to Windows domains and support Active Directory authentication and user account operations.
- Configure and troubleshoot IPv4, DNS, DHCP, VPN, LAN/Wi-Fi, and network connectivity problems.
- Install, configure, and troubleshoot Microsoft 365, Outlook, hardware drivers, and business applications.
- Deploy software packages from FTP repositories and verify successful installations.
- Configure DMS printers, CTS scanner printers, network printers, and peripheral devices.
- Provide remote L1/L2 support, document resolutions in the ITSM platform, and escalate server/network incidents when required.

Desktop Support Engineer | Kaizen IT Services Pvt. Ltd. (CBDT Taxnet 2.0) | Mar 2025 – Mar 2026

- Supported a mission-critical government IT environment for the Income Tax Department.
- Resolved 25–40 daily incidents across Windows, applications, and networking while maintaining SLA compliance.
- Managed Active Directory accounts, password resets, and access requests.
- Troubleshot DNS, DHCP, IP addressing, LAN/Wi-Fi, and Cisco network connectivity.
- Provided remote support via TeamViewer and AnyDesk and coordinated with NOC teams.

PROJECTS

- Windows Server 2025 Home Lab: Active Directory, DNS, DHCP, Group Policy, Organizational Units, VMware Workstation Pro, Windows 11 domain clients.
- Cisco Enterprise Network Lab: OSPF, VLANs, Inter-VLAN Routing, NAT, ACLs, SSH hardening, router and switch configuration in Cisco Packet Tracer.

CERTIFICATIONS

- Cisco Certified Network Associate (CCNA)
- ITIL Foundation – In Progress
- AWS Certified Cloud Practitioner (CLF-C02) – In Progress
